Want to learn how to make money in the markets this weekend?

**Hi Fellow Traders & Investors** --- I learned many years ago that the weekends are an excellent time to do research and learn about the financial markets. When you have a job working 40 to 50 hours per week, study and research is difficult Monday through Friday.

You are probably too stressed and busy during the week to have time to research and study techniques on how to increase your profits trading and investing.

That's why we have weekends. Most successful traders and investors will make time in their busy schedules to research, study and learn how to become successful and then extract profits from the financial markets.

Are you a "Weekend Warrior?" Are you willing to make time available in your busy

schedule to learn techniques and strategies that can help you "bring home the bacon?" Perhaps you are already retired but still very busy? Are you willing to make some time available to become a "Weekend Warrior?"

For me, I'm retired from a career as an USAF officer and 20+ years in industry, I never want to stop learning. I never want to stop the profits from flowing into by accounts, for I have 7 grandkids headed to college. I want to help them financially to make their lives easier as they do the hard work of getting the best education possible.

Would you like to join me as a "Weekend Warrior" to carve out some time in your busy schedule to learn more about the financial markets? If so, check out the information below that will help you get started this weekend.

Interested in Turning Your "Hobby" into a Business? The Silicon Valley Options Group is starting a new series of videos that will teach us how to turn our trading and investing "hobby" into a mini-business. Most of us just start trading without giving any thought as to what it takes to make trading a "business" instead of a "hobby." I think that you will find this series of videos very informative and will give you a very different and helpful perspective on taking your hobby to the next level.....making it into a career with a very profitable future. Good luck!

Have a wonderful weekend; take a few minutes to enjoy my short, but interesting ride in The Philippines, taken last year while visiting my wife's family in Cavite City.
