## Want to learn how to make money in the markets this weekend?

**Hi Fellow Traders & Investors** --- I learned many years ago that the weekends are an excellent time to do research and learn about the financial markets. When you have a job working 40 to 50 hours per week, study and research is difficult Monday through Friday.

You are probably too stressed and busy during the week to have time to research and study techniques on how to increase your profits trading and investing.

That's why we have weekends. Most successful traders and investors will make time in their busy schedules to research, study and learn how to become successful and then extract profits from the financial markets.

Are you a "Weekend Warrior?" Are you willing to make time available in your busy schedule to learn techniques and strategies that can help you "bring home the bacon?" Perhaps you are already retired but still very busy? Are you willing to make some time available to become a "Weekend Warrior?"

For me, I'm retired from a career as an USAF officer and 20+ years in industry, I never want to stop learning. I never want to stop the profits from flowing into my accounts, for I have 7 grandkids headed to college. I want to help them financially to make their lives easier as they do the hard work of getting the best education possible.

Would you like to join me as a "Weekend Warrior" to carve out some time in your busy schedule to learn more about the financial markets? If so, check out the information below that will help you get started this weekend.

## How To Make Money Trading Stocks

Hi Fellow Traders and Investors, here's a new video from Dennis Wilborn, trader and investor from "Active Trend Trading System" that I think that you will find most informative on these individual stocks: **VDSI, ALK, HBT, GRUB, SCLA, GLOG, FRGI, AND ZFGN.**

In this FREE video, Dennis reviews each of the above symbols and gives us his perspectives as to what we should look for when deciding if these stocks are right for us. He includes his thoughts as he completes a brief technical analysis of each stock.

I have known Dennis for over two years and enjoy attending his monthly **Bay Area Money Makers** (BAMM) meetings in San Jose, CA where he shares his knowledge and experiences especially using the Investors Business Daily (IBD) strategies. Dennis recently created his new website where he actively shares his perspectives each week on a variety of stocks ready to reap profits. I recently began using his service and found it profitable. Check it out for yourself and see if it benefits you too.

Dennis has agreed to provide our InvestorsHELP.net subscribers with a 40% to 60% discount off of his regular prices if you use the links found at InvestorsHELP.net on this page: [\[LINKS FOR DENNIS' ATTS\]](#).

Now, it's time to watch the video and hear what Dennis has to say so that you too can take advantage of the services that he offers: [\[LET'S HEAR FROM DENNIS\]](#)

## Want to Attend Interesting Meetings In Northern or Southern California?

Many of our subscribers here in Northern CA are enjoying our monthly listing of meetings and presentations for traders and investors. We are now expanding this listing to the greater Los Angeles area to see if there is an interest by investors and traders in that area. So, we have added a few meetings for that area, and will add more as we receive inputs from our subscribers in Southern CA. **Please send your meeting notices to: [InvestorsHelpNet@gmail.com](mailto:InvestorsHelpNet@gmail.com).**

## **Novice\_Trader\_Cindy -- Produces Her 5th Video!**

As many of you know, my daughter Cindy, started learning about the financial markets in September, 2014. **It has been an interesting (and wonderful) experience for both of us, especially since we get to spend about an hour during each workday on Skype discussing the markets.** She has been making excellent progress, so much so, that we are now working together on our "ETF Strategy" for making quick profits in a select group of about 9 Exchange Traded Funds. More on this later....

Yesterday, Cindy produced a short video on what's available to traders and investors at the TD Ameritrade website. I hope that this is only the beginning of several videos from Cindy since there is a tremendous amount of information available at this website for all traders and investors, regardless of your level of experience.
